Well... we've been here in South Dakota for two months now. The situation regarding our visas is still very muddy. There is one feasible option for a visa for us. There is another option under discussion, but it has significant problems that need to be solved before it can work. So... by faith we continue to wait.

We enjoyed a beautiful Easter sunrise service here in the Black Hills, are enjoying visits with our family and friends and still trying to adjust to the situation we are in right now.

This week our representative body is meeting in Indonesia to discuss the current situation. We ask that you pray for them as they seek God's will and direction for this time of crisis.

Please also pray for the SIL employees who will lose their jobs in June. They are evaluating the option of forming a non-profit company to continue the work in their province.

Our family leaves for Oklahoma to speak in Tulsa Bible Church am and Countryside Bible Church pm on the 30<sup>th</sup> of March.

IT will be an interesting trip with Grandma and Grandpa Seaman going with us!

God Bless and thanks for praying for us! We appreciate it!

Di, Larry, and the kids!
